

# Final Project's 1st Version Presentation

—

Jinghan Hu

# Overview

My website is designed for the Chinese diabetes patients who want to know about how to treat this illness, and what should they care about in life

It is like a non-profit web educational brochure

index page	“糖控”	“Sugar Control”
subpages	<ol style="list-style-type: none"><li>1. 日常衣物</li><li>2. 饮食习惯</li><li>3. 居家住房</li><li>4. 出游旅行</li><li>5. 强身健体</li><li>6. 血糖测量</li><li>7. 心理健康</li><li>8. 品牌案例</li><li>9. 资讯参考</li><li>10. 联络服务</li></ol>	<ol style="list-style-type: none"><li>Daily Clothing</li><li>Eating Habits</li><li>Living &amp; Housing</li><li>Traveling</li><li>Exercising</li><li>Blood Glucose Measuring</li><li>Mental Health</li><li>Treatments and Brands</li><li>Informational Mediums</li><li>Contacting</li></ol>

# Research: content

1. **Interview** (audio record + FaceTime + Chinese social app)

2. **Chinese and U.S medical or professional websites**

01 Curabitur eleifend a diam quis suscipit. Class aptent taciti sociosqu ad litora et nec torquent per conubia nostra.

02 Amet, consectetur adipiscing elit. Curabitur eleifend a diam quis suscipit. Class aptent taciti sociosqu ad litora torquent per conubia nostra.

03 Consectetur adipiscing elit. Curabitur eleifend lorem a diam quis suscipit. Class aptent taciti sociosqu ad litora torquent ipsum per conubia nostra.

# Research: design & technical

1. **Color scheme** (healthy, welcome, educational)

2. **Fonts** (clear and comfortable)

3. **Plugins** (wow.js, bootstrap, etc)

02

Changes

# What Went Well?

1. **Responsive layouts in PC/Mac, tablet, and cellphone** (meta tags went well)
2. **Animation effects** (natural, subtle, fit for contents)
3. **Color Scheme & mood** (my user: “I felt the sense of welcoming” )
4. **Illustrations** (my user: “make sense & interesting to look” )

User Testing

Insights

Changes

# What could have been improved?

1. Using more time to designing those transitions and layouts

2. Reducing the time of doing those illustrations

- 01 Consectetur adipiscing elit. Curabitur eleifend a diam quis suscipit. Class aptent taciti sociosqu ad litora et nec torquent per conubia nostra.
- 02 Amet, consectetur adipiscing elit. Curabitur eleifend a diam quis suscipit. Class aptent taciti sociosqu ad litora torquent per conubia nostra.
- 03 Consectetur adipiscing elit. Curabitur eleifend lorem a diam quis suscipit. Class aptent taciti sociosqu ad litora torquent ipsum per conubia nostra.

**User Testing**

Insights

Changes

# How did I perform user test?

Step 1: **Using a “video call” feature in Chinese social app** (it's easier for me to talk with them after the user test)

Step 2: **Sending my user the link of one of my subpages and ask them to call me back right away after they finish**( I end the call.)

Step 3: **Setting up a timer**

Step 4: **Picking up the incoming call, and ask their feedbacks**

**KPI: They time they have spend on one page (My expectation: 40 seconds-1min)**

Changes

# Insights

1. **Hard to keep “non-commercial” feature in Treatments and Brands page.**
2. **Interview people is more important than researching from online resources**
3. **Testing with various people will help build my websites**
4. **Friends are my best teachers.**
5. **Never be impatient about doing unfamiliar stuff**

# My Further Changes

1. **More information on “Interview parts”** (my users: “some pages just have a several lines in the interview parts. You can ask your interviewer to add more.”)
2. **More information or features on “contact page”** (my users: “maybe add more description or adjust the layout of the contact page to make it feel more ‘trustworthy’.” )
3. **Ask more users from different ages.**
4. **Add a “go back to the top” feature in every page?**
5. Text animation for the Eating Habits page (pyramid)
